

Parnassus Endeavor Fund

First Quarter 2019

Strategy

The Parnassus Endeavor Fund invests with low turnover and high conviction in approximately 30 holdings. The Fund focuses on identifying companies with:

- Wide moats or strong competitive advantages that protect market share and profitability
- Quality management teams that will act in the best interest of shareholders
- Favorable three-year investment horizon

The Fund invests in large-capitalization companies that represent Parnassus's clearest expression of ESG investing: Portfolio companies must offer outstanding workplaces, and must not be engaged in the extraction, exploration, production, manufacturing or refining of fossil fuels. This workplace focus can result in significant exposure to technology companies, many of which are leaders in offering positive and innovative workplaces.

¹All returns greater than one year are annualized. ²Percent based on total net assets as of 3/31/19.

Risks: The Fund's share price may change daily based on the value of its security holdings. Stock markets can be volatile, and stock values fluctuate in response to the asset levels of individual companies and in response to general U.S. and international market and economic conditions. In addition to large-cap companies, the Fund may invest in small- and/or mid-cap companies, which can be more volatile than large-cap firms. Security holdings in the fund can vary significantly from broad market indexes. ³The chart shows the growth of a hypothetical \$10,000 investment since inception and assumes reinvestment of dividends and capital gains. It does not reflect the deduction of taxes a shareholder would pay on fund distributions or the redemption of fund shares. All data as of 3/31/19, unless otherwise noted.

Average Weighted Market Cap is the average capitalization of all stocks in the portfolio, weighted by each holding's size in the portfolio. **Price/Earnings (P/E) Ratio** is a ratio of a stock's current price to its per-share earnings over the past 12 months. **Price/Book (P/B) Ratio** is the ratio of a stock's latest closing price divided by its book value per share. **Alpha** is a measure of performance on a risk-adjusted basis. Alpha takes the volatility (price risk) of a mutual fund and compares its risk-adjusted performance to a benchmark index. The excess return of the fund relative to the return of the benchmark index is a fund's alpha. **Beta** is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the market as a whole. A beta over 1.00 suggests that the share price will typically be more volatile than the market. **R-Squared** is a measurement of how closely the portfolio's performance correlates with the performance of a benchmark index such as the S&P 500 Index. **Standard Deviation** is a calculation used to measure the variability (risk) of a portfolio's performance. **Sharpe Ratio** is a ratio used to measure risk-adjusted performance. It is calculated by subtracting the risk-free rate from the rate of return for a portfolio and dividing the result by the standard deviation of the portfolio returns. **Active Share** measures the percentage amount your portfolio differs from a passive benchmark. The **Morningstar Rating™** for funds, or "star rating," is calculated for managed products (including mutual funds, variable annuity and variable life subaccounts, exchange-traded funds, closed-end funds, and separate accounts) with at least a three-year history. Exchange-traded funds and open-ended mutual funds are considered a single population for comparative purposes. **It is calculated based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a managed product's monthly excess performance, placing more emphasis on downward variations and rewarding consistent performance.** The top 10% of products in each product category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. The Overall Morningstar Rating for a managed product is derived from a weighted average of the performance figures associated with its three-, five-, and 10-year (if applicable) Morningstar Rating metrics. The weights are: 100% three-year rating for 36-59 months of total returns, 60% five-year rating/40% three-year rating for 60-119 months of total returns, and 50% 10-year rating/30% five-year rating/20% three-year rating for 120 or more months of total returns. While the 10-year overall star rating formula seems to give the most weight to the 10-year period, the most recent three-year period actually has the greatest impact because it is included in all three rating periods. As of 3/31/2019, Parnassus Endeavor Fund was rated against the following numbers of Large Blend Funds over the following time periods: 1,218 funds in the last three years, 1,081 funds in the last five years and 810 funds in the last 10 years. With respect to these Large Blend funds, the Parnassus Endeavor Fund – Investor Share Class received a Morningstar Rating of 3, 5 and 5 stars for the 3-, 5- and 10-year periods, respectively. The **Morningstar® Sustainability Rating** is intended to measure how well the companies within a fund's portfolio are managing their environmental, social, and governance ("ESG") risks and opportunities relative to the fund's Morningstar category peers. The Morningstar Sustainability Rating is assigned to all scored funds within Morningstar Categories in which at least ten (10) funds receive a Portfolio Sustainability Score and is determined by each fund's rank within the following distribution: • High (highest 10%) • Above Average (next 22.5%) • Average (next 35%) • Below Average (next 22.5%) and • Low (lowest 10%). The Morningstar Sustainability Rating is depicted by globe icons where High equals 5 globes and Low equals 1 globe. As of 2/28/2019, the Parnassus Endeavor Fund received a Morningstar Sustainability Rating of High out of 686 US Equity Large Cap Blend funds. Based on 92% of AUM. Sustainability provides company-level analysis used in the calculation of Morningstar's Sustainability Score. For details, visit <http://morningstar.com/company/sustainability>. © 2019 Morningstar.
